

Feedback after third "Storytelling Workshop for Librarians"

Panevėžys County Library, Lithuania, 2025

1. Everything is wonderful.
2. Thank you.
3. Everything is very good.
4. Continue the training cycle.
5. The training could take place continuously — it helps to improve already acquired competences, to see other participants' achievements, and to draw one's own useful conclusions.
6. It could have continuity.
7. I would like to thank you for organizing the training. I have participated in several storytelling workshops, and I am glad that each time after the training I gain more confidence and realize that I am going in the right direction when leading storytelling education sessions myself. It is also very nice that we can share experiences with colleagues and apply them in our own educational activities.
8. Probably everyone can be taught everything... Each person individually, I think, chooses what they can learn from this or that. Thank you.
9. The training is very useful.
10. More practical activities...
11. The training is necessary because we carry out such activities.
12. I gained new knowledge and revised what I already knew. Excellent training.
13. I would like to continue exploring this inexhaustible topic again and again.
14. I have participated more than once, but each time I find something I can improve.
15. Excellent training. I would like a continuation.
16. It is always useful to meet professional storytellers.
17. The lecturer spoke English, and the translation was excellent. It would be nice if there were also participants who speak English.
18. Everything was very good, but I would like even more stories and storytelling lessons.
